

## REMARKS

A substitute specification, in which no new matter has been added, is submitted herewith in both a marked and a clean version. Because it is noted that the changes intended to be made to the specification in the Amendment dated January 6, 2006, were not in the proper format (in that the added text was not underlined), it is assumed that those changes have not been entered, and therefore they have been made again, in proper format, in the substitute specification.

In addition, the Abstract has been amended as to matters of form.

Applicant's undersigned attorney may be reached in our New York Office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address listed below.

Respectfully submitted,
